

## **Bachelor of Science in Economics Education**

The Bachelor of Science in Economics Education is a four-year undergraduate program designed to equip students with a solid foundation in economic theory, quantitative analysis, and pedagogical skills. The program blends rigorous training in core economics with professional education courses to prepare graduates to teach economics effectively at the second-cycle level and to contribute to economic policy, research, and development. Students gain proficiency in microeconomics, macroeconomics, econometrics, mathematics, and educational psychology, along with practical experience through teaching practice and fieldwork. The program also emphasizes critical thinking, research skills, ICT integration, and ethical professionalism. Graduates of the program are well-prepared for careers in education, research, public service, and the private sector, and may also pursue postgraduate studies in economics, education, or related disciplines.

### *Components of the Programme*

#### **SEMESTER 1**

<b>Code</b>	<b>Course Title</b>	<b>T</b>	<b>P</b>	<b>C</b>
ECNS 111	Principles of Microeconomics	3	0	3
